

G Shot HD551T

High Definition Smart Touch Screen Camcorder

G-Shot HD551T is a 5.0 mega pixel CMOS camcorder with HD resolution from Genius. The handy slim design has a smart 3" large touch panel that lets you access the menu easily. Use the high-compression H.264 format to record videos at 30fps/1280 x 720 pixels and still images at up to 5 mega pixels and up to 16MP by the software.

Not good at taking a video or photo in backlight or low light? G-Shot HD551T lets you take these kinds of videos or photos without any dark faces. Just could press the "light" feature to compensate for low light conditions. Or you can adjust the AE (Auto Exposure) on the touch screen for a successful photo without selecting a lot of settings beforehand.

Even better, your family or friends can watch your recorded videos or photos on a LCD TV with the HDMI cable without compromising the playback quality.

Get the latest camcorder technology with the G-Shot HD551T, the smartest Genius high definition three inch touch screen camcorder.
